## **Course Title: Grease Interceptor Inspector Training**

**Course Aims:** This workshop is a one-day training workshop for inspectors to provide theoretical grease interceptor operation and “hands on” training for public and private sectors in which personnel require knowledge of grease traps.

Bio-Industries have worked with clients and local authorities in managing grease traps over ten years. Bio-Industries have developed a Fats, Oils, and Grease Management Training Course. Utilizing the knowledge of experts already involved in the management of fats, oils, and grease as well as input from new developments such as research and implementation feedback, this course presents implementation

**Introduction** details for a variety of FOG control options for fats, oils, and grease.

The purpose of the training course is to present a spectrum of options that can be used as a basis for utilities to design and implement their own site-specific FOG management programs for preventing or eliminating the entry of FOG into the collection system.

**Course Content:**

- Principles of FOG Separation Process & Design Issues
- Principles of Grease Interceptor Operation & Maintenance
- Grease Trap Management & Training
- Grease Interceptor Sizing and Concerns
- Grease Interceptor and Trap Permits and legal requirement
- Grease Interceptor and Trap Inspection Process
- Grease Interceptor and Trap Additives
- Grease Interceptor Sampling
- Grease Interceptor Pump Out

### **Learning Method**

Practical hands-on skills / knowledge transfer.

### **Duration & Venue**

1 day on-site

### **Costing**

The cost below includes expenses such as travel, etc. and will include

Bio-Industries Ltd,  
Unit 66d Heather Road,  
Sandyford Business Park,  
Dublin 18,  
Ireland

Telephone: +353(1)2941025  
Fax: +353(1)2941027

- Course Documentation, namely delegate manuals, course Equipment, namely laptop and multimedia projector.
- Course Certificates.

**Total = €50**

### **Consultants/Trainers**

It is standard company policy that all Consultants/Trainers shall also be experienced practitioners and familiar with the successful implementation of training programmes.

### **Environmental Consultant**

Trevor Montgomery, Consultant of Bio-Industries Ltd

- BSc. Environmental Science (Honours) from IT Sligo.
- 12 years experience in wastewater and grease trap management.
